CONSULTANCY SERVICES

Althabat have a deep bench of ICT consultants help you to ensures that you ICT strategy is comprehensive and align with the organization's business strategy. We help our clients in the implementation and the management of their ICT departments truly aligned with new arising models of organizations which are built on sustainable development and innovation.

Services

✓ Project Management

Project management for complex projects goes beyond task management and budgets. Our consultants are experts in project governance, milestone management, risk mitigation, and pivoting as needed.

Digital Transformation Strategy

With the plethora of options and uncertainties of large-scale digital transformations, many of our clients don't know where to begin with their digital strategies. For decades, they've relied on Third Stage's expert consultants for guidance on cloud vs. on-premise solutions, system architecture, emerging technologies, supply chain and business process optimization, and more.

We recognize there is no one-size-fits-all solution. That's why we create custom roadmaps tailored to each of our clients to support them where they are and where they're headed.

Organizational Change Management

New or upgraded technology means nothing if it isn't adopted by an organization's people. We help clients overcome resistance to change, map out future roles and responsibilities, and ensure a smooth transition.

Organizational change management is one thing project teams always say they could – and should – have done better. The organizations that find success with their digital transformations plan ahead and commit to a full change plan.

Our consultants have seen what makes and breaks a business transformation. Together with our clients, we develop a comprehensive readiness plan using tactics such as:

- ☐ Change impact assessments.
- ☐ Benefits realization.
- ☐ Communications plans.
- ☐ Organizational assessments and design.
- ☐ User adoption strategies.
- ☐ Culture of transformation

SUPPLY SERVICES

In partnership with many name brand manufacturers of ICT equipment and consumables, **Althabat** brings you the widest range of ICT supplies. Our staff work as if they are working for the client's procurement organization, we study the requirements, help find answers and when the requirement is finalized, we get it done with time and cost as our measure of performance.
